EmojiRole

Introduction

EmojiRole
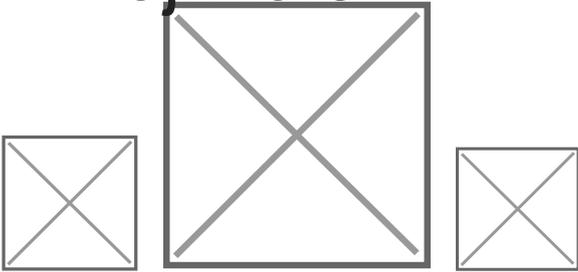

Easily lock emojis to certain roles using EmojiRole!

EmojiRole allows you to restrict emojis to certain roles. This can be useful for booster perks, staff-only emotes, and more!

- [Invite](#)
- [Support](#)

All Commands

Command Name	Command Description
/help	Get a list of all commands
/invite	Invite the bot to your server
/support	Get support for the bot
--	--
/list (emoji)	List all the roles for an emoji
/lockemoji (emojis) (roles)	Lock the emoji(s) to one or more roles
/unlockemoji (emojis) (roles)	Remove one or more roles from the emoji(s)
/unlockall	Remove all emojis from all roles

Troubleshooting

Before asking for help in our [support server](), try the following:

- Try kicking the bot and re-inviting it
- Make sure it has the following permissions:
  -

  - Please note that you can't lock base emojis (Discord built-in - e.g. 🟦 or 🟦) to roles.
    This is not something we can change, as it is a Discord limitation.

If the bot is offline, join the support server and look at the `#status` channel to check if the bot is down for everyone.

Emoji Management Commands

`/list (emoji)`

Purpose: List all roles that an emoji is locked to

**Parameters:**

- emoji* - The emoji to list roles for

> You can't lock base emojis (Discord built-in - e.g. 🔲 or 🔳) to roles. This is not something we can change, as it is a Discord limitation

`/lockemoji (emojis) (roles)`

Purpose: Lock an emoji to one or more roles

Parameters:

- emojis* - The emoji(s) to lock to the roles
- roles* - The role(s) to lock the emoji to
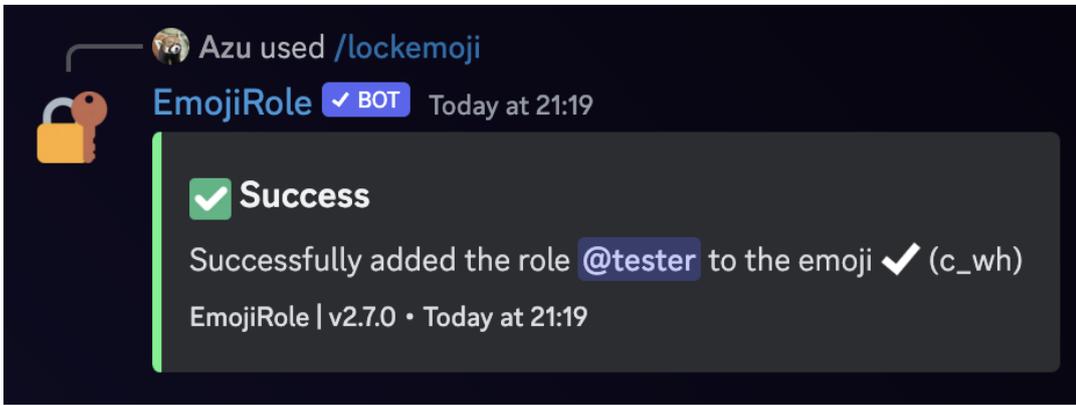

/unlockemoji (emojis) (roles)

Purpose: Remove an emoji from one or more roles

Parameters:

- emojis* - The emoji(s) to be removed from the roles
- roles* - The role(s) to remove the emoji from
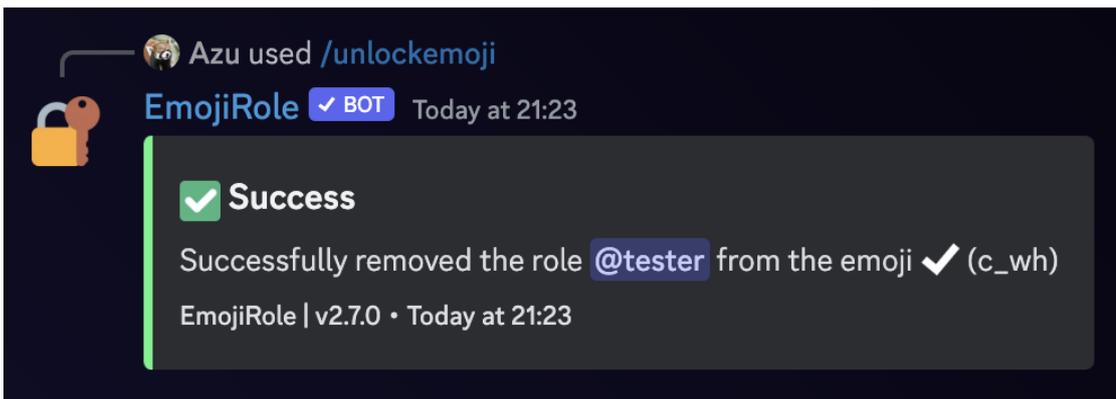

/unlockall

Purpose: Remove all roles from all emojis

> **Warning:** This command could result in unintended actions

Due to the possible destructive nature of this command (opening up all emojis for use for everyone in the server), a verification prompt is required before the command can be executed.
