# Introduction

EmojiRole

Easily lock emojis to certain roles using EmojiRole!

EmojiRole allows you to restrict emojis to certain roles. This can be useful for booster perks, staff-only emotes, and more!

- Invite
- Support

All Commands

Command Name	Command Description
/help	Get a list of all commands
/invite	Invite the bot to your server
/support	Get support for the bot
--	--
/list (emoji)	List all the roles for an emoji
/lockemoji (emojis) (roles)	Lock the emoji(s) to one or more roles
/unlockemoji (emojis) (roles)	Remove one or more roles from the emoji(s)

/unlockall	Remove all emojis from all roles

Troubleshooting

Before asking for help in our support server, try the following:

- Try kicking the bot and re-inviting it
- Make sure it has the following permissions:
  -
  - Please note that you can't lock base emojis (Discord built-in - e.g. 🟦 or 🟥) to roles. This is not something we can change, as it is a Discord limitation.

If the bot is offline, join the support server and look at the `#status` channel to check if the bot is down for everyone.
