

FixThreads

- Introduction

Introduction

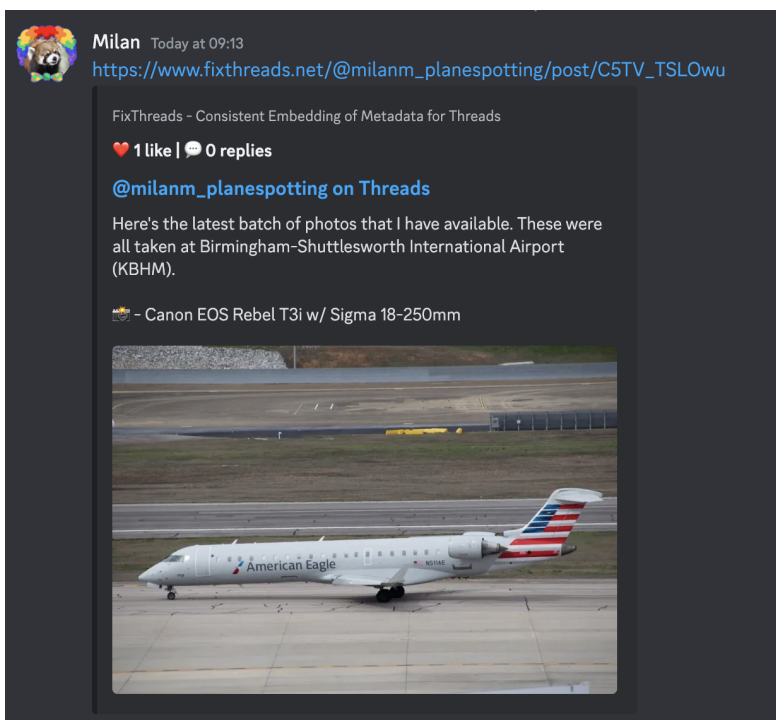

FixThreads

Fixes Meta's Threads metadata for sites like Discord, Telegram, etc.

FixThreads allows you to send threads.net links on services like Discord and Telegram while adding more information to the embeds that show up.

- [GitHub Repository](#)
- [Discord Server](#)

How to use

1. Copy your `threads.net` link and paste it into whatever service you'd like (Discord, Telegram, etc.)
2. Prepend the link with `fix` to make the link `fixthreads.net` (or `www.fixthreads.net`)
3. Send the link and wait for the embed to show, now with more information!

Troubleshooting

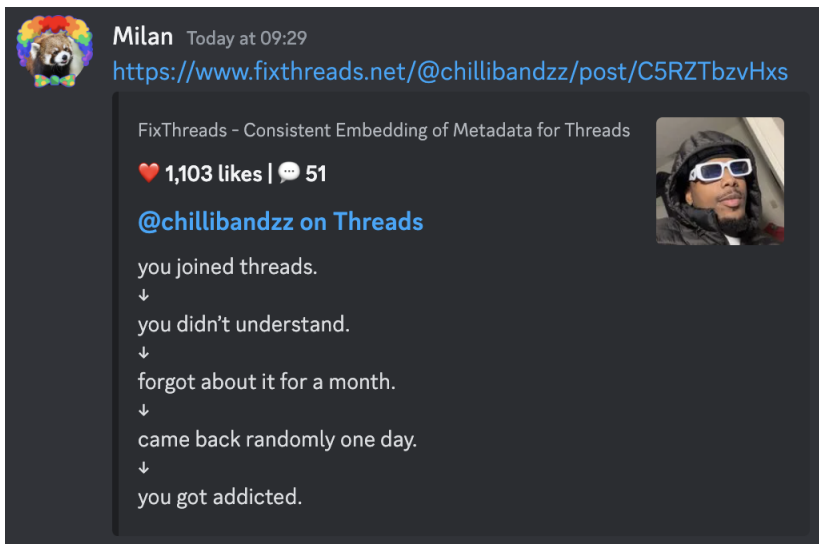

- If the embed won't show up, verify that the post and/or user is not private. FixThreads can't embed posts for private users and posts
- Verify that the site is up by visiting status.milanm.org
- For further support, join the [Discord server](#)

Once upon a time you could travel from New York to London in 2 hours 52 minutes.

This was Concorde.

Nothing replaced it....

🗨️ Replying to @jetblue

I hate it when a brand's April Fools Day prank is actually genius.

We can't wait for everyone to experience our new 787 Dreamliner in the sky! ✈️🌤️🌟

↩️ Quoting @thepointsguy

This might be one of the most beautiful new Dreamliners we've seen in a while. 🌟✈️

We got a sneak peek at the stunning new cabins that Hawaiian Airlines has unveiled aboard its Boeing 787-9 Dreamliners.
